Note: If manufacturer has applied any primer finish, (it is meant only for the protection of the tanks during shipment and storage) it is **not recommended as a primer finish** for paint application without proper surface preparation. Where custom paint is to be applied, the tanks must be pressure tested, then sealed with tank prep PC #78001 and Kreem PC #78002 before painting, to help protect the final finish.

Flatside Gas Tanks

Flatside Fat Bob Gas Tanks 1984-E96

Reproductions of 'flatside' Fat Bob gas tanks. They fit 1984 FXST and all 1985-on models with split tanks. Mounting hardware not included but available separately. Use 1983-E96 screw in gas caps and 13/16" petcocks.

- 6037** 3.5 Gal (61218-85, 61426-85)
- 6480** 5.0 Gal (61211-84A, 61228-84)

Rubber Mounts for Flatside Gas Tanks

These rubber mounts replace the OEM bushings parts used to mount the flatside gas tanks to FX 4 speeds 1985-86 and all Softails® 1984-on.

- 23010** 6 grommets (11447) and 2 spacers (5775)
- 16316** Spacers (5775) (10)

Custom Hardware Kit for "Flatside" Tanks

The beveled washers and mounting screws are chrome plated, and provide a custom look. They replace the OEM screws and washers.

- 24040** All Softail® 1991-99

FXST Lower Gas Tank Mounting Kit 1984-90

Kit for flat side tanks include chrome acorn nuts, thread stud and 2 beveled washers. Also fits 1985-86 FXWG, FXSB/EF.

- 24032**

FXST Gas Tank Mount Kit

Includes all brackets, bolts, bushings and hardware to mount Flat Side gas tanks on 1984-up FXST-FLST models.

- 27042** 1984-90 FXST
- 27041** For flatsides on to 1958-84 frame (some welding required)

Flatside Tank Mounting Kit

Mounts late model rubber mount tanks to 1958-84 FL type frames or aftermarket custom frames.

- 27041** Note: Welding required

Custom Mounting Kit for "Flatside" Tanks

A complete mounting kit to mount "flatside" gas tanks to custom frames (replaces the OEM parts). The beveled washers and countersunk screws are chrome-plated.

- 27040** Fits the 1984 Softail®, and all models with split tanks from 1985-on.

Tank Lifter Kits

Raises the front of the stock gas tank.

Gas Tanks

Stretch Bob 3.5 Gal. Flatside Tanks 1984-99

These tanks feature an add-on stretch portion (non gas area) that fills the stock open area. Works with stock dash, panel, caps, 1975-on gas tap and most standard width seats.

89008 Set

FXST "BIG" Flatside Tanks 1984-96

These wider than stock tanks feature extra fuel capacity for longer running. Tanks are wider but, remain the same length and height to allow the use of standard dash, tank panels and seats without modifications. Flatside tanks fit all FXST 1984-96 and most aftermarket frames with Fatbob brackets. Tanks accept stock or custom 1982-on screw in gas caps and late model 13/16" petcocks.

89025 6.0 gallon

89055 7.0 gallon

Dyna Bobbed Gas Tank 1990-95

One-piece tank comes complete with chrome dash panel and all necessary mounting hardware. Gives your Dyna a Fatbob look without all the work.

89002 4 Gallon

Frame Saver Gas Tank Mount Kit

Kit includes front and rear tank mount to mount Bobbed tanks to custom or original frames. A clamping bracket is included to allow for an easy pre-check of tank placement prior to welding the bracket in place.

27301 1985-99 Flat side tanks

Gas Tanks

Bobbed Tank Kit FXR, FXD

Includes chrome cast dash assembly w. a Bob type 6 post key switch, and a plain dash base. Pre 1995 units include a 2240:1 ratio large speedo. 1995-on units include an adapter ring for the existing electronic speedo. 4 Gallon tank.

PCP	Application

90062	FXD 1990-94
90063	FXD 1995-05

1996-05 One Piece 5.1 Gallon Gas Tanks

Are replacement type and accept screw in gas caps on both sides, available separately.

89102 FXDWG

Fat Bob Gas Tank for FXR Models 1982-94

Fat Bob look for all FXR's 1982-94 (will not fit Dyna Glide™). At 4 U.S. gallons, the tank has the appearance of split tanks but is really a one-piece welded tank with 1983-on screw-top filler necks, and 1975-on 13/16" external-thread gas tap fitting. Bolts to the stock mounts and accepts FL-style dash assemblies (not Cateye) with correct dash base. All parts pictured included. The tanks are raw finished and ready for painting.

6478 Fat Bob gas tank for FXR 's

FLT E-Z Bob Tank Kit 1980-99

Kit includes a one piece tank with bung style caps, chrome cast dash, 5 lamp dash base, 6 post bobbed style key switch, 2:1 speedo, front wheel drive cable, and hardware. This kit requires the use of solo seat or FXR style seat for installation. Allows retention of stock gauge housing and FLT key switch, if desired. 4 Gallon tank.

89077

FXDWG Dash Bracket

Will accept 2000-on electronic dash and speedo and FXDWG OEM electronic dash 71246-95 and 71246-99.

73729

Gas Tanks

Kreem Tank Degreaser

Perfect for use on new aftermarket tanks. This safe, biodegradable degreaser quickly removes protective oily coating from inside new tanks. Used prior to the Kreem Prep kit this material ensures a clean, oil free surface. It can also be used as a general purpose cleaner/degreaser.

78004 1 pint bottle (each)

78003

78002

78001

Kreem Tank Mask

This water based liquid mask is easily applied to painted tanks and other painted surfaces. It dries to a non tacky film that resists Kreem fuel tank liner and prep B materials. For use on tanks with expensive outsides that need Kreem liner on the inside. Just paint it on, let it dry, prep and coat the inside, then peel or wash the Kreem tank mask away using warm soapy water.

78006 Each

Kreem® Gas Tank Prep Kit and Gas Tank Liner

A two-stage kit that prepares a gas tank for sealing. Tank Prep A is a concentrated cleaner, Prep B a final rinse and conditioner. The Kit removes loose rust and dirt inside the tank while at the same time conditioning the inside of the tank leave in. The kit includes 1 pint of Prep A and 1/2 pint of Prep B. The tank liner produces a "tank within a tank". The liquid quickly cures to a tough, elastomer compound that seals and protects any tank, while preventing rust and leaks. It resists alcohol and gas and withstands most octane boosters. Tanks require one pint of Kreem® per three gallons of tank capacity.

78001 Kreem® gas tank prep kit (2 bottles as pictured)

78002 Kreem® Gas tank liner

78003 Kit of 3 bottles (1 each of cleaner, conditioner and sealer)

Stretch Gas Tanks

89008

89034

89036

BT Stretch Flatside Gas Tanks 1984-99

These tanks feature an additional stretch that completely fills the space between the tank and seat. Each tank is constructed from heavy gauge steel for use with stock dash, tank panel, late model (13/16" thread) petcock and most standard width seats. Available for standard 1983-on screw in gas caps or for aircraft style (flush mount) screw in gas caps. Stretch portions do not hold fuel and some wide or touring seats will require modification. (Purchase caps separately)

Gas Caps

Chromed Steel Late Threaded Gas Caps

These beautifully plated late styled "bung" steel caps are quality replacements of the OEM part. These caps come with the latest low-pressure relief vent correctly recessed in the cap to clear the filler neck vent tube on 1983-05 gas tanks.

PCP	Description
3083	Set, left and right hand thread
3084	L/S cap only 1983-95 (non-vented) (61103-83)
3085	R/S cap only 1983-95 (vented). Also fits single cap models except FLT(C)/FLHT(C) (61102-83A)
45480	R/S cap (vented), (61272-92A) 1996-05
45481	Set, left and right (61103-83B,61272-92A) 1996-05

Chrome Plastic Threaded Gas Caps 1983-95

A set of plastic bodied, nylon thread, screw-type gas caps for OEM as well as PCP tanks with screw-type filler necks. Available for split tank models 1982-on, with correct pressure relief setting and ratchet "overrun" design. Right side cap is available individually for single tank models including XLX, XLH, XR (but not FLT and FLHT) 1982-on, and most XLS models and all FXR series models 1982-on.

PCP	Description
3086	Set, left and right hand thread 1983-95
3087	R/S cap only for single tank models only (61102-83A) vented 1983-95
3088	L/S cap only 1983-95 (non-vented) (61103-83)

3285

3288

Sportster® Tanks

89071

89004

3.2 US allon XL One Piece Bobs

Tanks fit XL models. Bolts to existing holes. Accepts 2 or 3 light dash kits which must be ordered separately. Must use XLS or shorter seat on 1982-on models. Order caps and dash separately.

PCP	Description
89071	1982-94
89127	2004-on
27259	Iso Mount kit 1982-03

XL 3.2 US Gallon Quick Bob Tanks

Feature a smooth top that **does not** accept dash panel or speedo. Includes one piece tank and mounting hardware.

PCP	Description
89004	1982-94 use 83-on screw style caps
89005	1995-03 use 83-on screw style caps (left side tap)

89031

XL Bobbed Gas Tank Kits-----Solid Mounted

Kit includes all parts necessary for a solid mount version. The dash panel accepts FL speedometer but does not accept the stock FL key switch, (plain dash only). Order speedo separately. All kits can be used with a solo seat (or custom seat with a shorter nose like the XLS type). Dash does not accept a speedo with a built in tach. 3.2 Gallon tank.

89017	1982-94
89059	1995-03

89032

89138

3.2 US Gallon XL King Tank

Classic shaped custom tank design features rolled under bottom edge that provides a flowing line to the look of your bike. Tanks are replicas of the 1996-on OEM style tank that are stock on 1997-03 XL. Measure 20" long by 10" wide.

PCP	Years	Tap Side
89031	1982-94	Right
89032	1995-03	Left
89138	2004-on	Left (62213-04)

Note: The zinc-chrome primer is for the protection of the tanks during shipment and not recommended as a base coat for paint application. As with any fuel tank, particularly one where custom paint is to be applied, the tanks must be pressure tested, and temporarily mounted to frame to check clearances, then sealed with tank prep (PC #78002) before painting.

Note: When installing on 1992 to 1994 models and disconnecting or eliminating the OEM continuous venting system, you must replace the stock vented cap with an earlier version screw cap.

Sportster® Tanks

“Standard” Gas Tank for Sportster

OEM-styled Sportster High-Tunnel Tank features stock mounts. 2.4 U.S. gal. capacity. Uses 1975-on style gas tap.

PCP Fits

6034 1982-92 (61023-83)
89035* 1993-03 (61264-93)

*Uses late type screw-in cap

“King” Gas Tanks for Sportster

King tanks are made 2” wider than stock, to give you that needed extra mileage. 3.1 U.S. gal. capacity.(stock 2.2 U.S.) Measure 2” wider than stock and is 17-1/2” long by 10-3/4” wide. Accepts 3/8” NPT petcock PCP# 938 and a screw cap. 1982-on tanks are fitted with correct internal venting system.

PCP Years Tap Side

- 21618 Chrome
- 21619 Polished
- 21620 Element

Pingel Vacuum Fuel Valve

This vacuum operated fuel valve is a direct OEM replacement and has the highest fuel flow of any vacuum style valve on the market. When the valve is left in the "ON" position with the motor off, the fuel flow will be shut off automatically. These valves are chrome plated and are metric with adaptor nut.

PCP Application

- 21622 Left side mount hose outlets facing forward
- 21623 Left side mount hose outlets facing to the rear
- 21624 Left or right side mount hose outlets down

Pingel Fuel Delivery Systems Are Covered Under One Or More Of The Following Patents: 4,250,921; 4,957,138; other patents pending.

R-Right: Left side mounted, hose outlet facing back.

U-Under: Left side mounted, hose outlet facing right.

L-Left: Left side mount, hose outlet facing forward or right side mounted for Sportsters, hose outlet facing rear.

D-Down: Left side mounted, hose outlet facing right and down.

The appearance of these fuel valves are a trademark of Pingel Enterprise, Inc. Patents pending. Made in the USA.

Pingel Power Flow Valve

One piece, billet, brass valve has a single outlet with "U" type reserve and a -6AN threaded fitting for fuel line hook up using S.S. hose and fittings. Line and S&S E & G carb fitting sold separately.

- 21621 Petcock
- 16271 S&S fitting

Pingel Fuel Valve Rebuild Kit

This kit was designed to work with Pingel's single or dual outlet fuel valves. The Kit includes: rebuild parts for three valves, all tools needed, and instructions.

- 21616 Fuel valve rebuild kit, complete for 3 valves
- 21617 Fuel valve rebuild components for 5 valves

S&S New Generation Air Filter Element

The new S&S Super E & G filter elements are made with the same filtering material used in many stock cars and drag racers. The new filtering media removes more airborne particles while allowing better air flow. The new filter media is also more durable and lasts longer because it can trap nearly twice as much dirt before becoming clogged. As an added bonus this material can be washed and reused several times before it needs to be replaced.

170054

Hi-Flow Air Cleaner Element

Fits S&S E air cleaners. Kit includes washable 3.5" high filter and mounting studs.

77747

K&N Aerosol Recharger Service Kit

A six step maintenance system designed to recharge any K&N air filter. Restores air flow efficiency. Includes 6.5oz spray oil and 12oz filter cleaner.

S&S Air Cleaner

S&S Teardrop Air Cleaner for Twin Cams

with stock carburetor and for 2002 fuel injected models. Owners of 1999-on Twin Cam style engines equipped with stock CV carburetors, 2001-on fuel injected Softails, and all 2002 fuel injected models can enjoy the performance benefit and good looks of an S&S teardrop air cleaner. S&S backplate bolts directly to the stock CV carb or the single throat style EFI throttle body.

Like other S&S air cleaners for stock carbs the Twin Cam style air cleaners feature a uniquely designed backplate with air horn style radiused entryway and a dimpled cover with air directional cone on the inside. Both features help maximize air flow by giving intake air an efficient, easy path to follow into the carburetor or throttle body. Harmful particles are captured by the foam filter element which can be washed out and reused. The air cleaner cover is finished in show quality chrome, which compliments the appearance of most motorcycles. Kits include instructions and all parts and hardware needed to complete the installation.

S&S teardrop air cleaner kit #170117 fits 1991-on Sportsters, 1993-on carbureted Evolution Big Twins, and 1999-on Twin Cam style engines with stock CV carbs in addition to 2001-on fuel injected Softails, and all 2002-on fuel injected models.

9980

S&S Style Carburetor Chrome Allen Screw Kit
Chrome plated smooth head allen screws replace the stock screws for a more decorative finish. Fits E and G models.
72596

Throttle Cable Adapter Kit
For use when fitting pre 1990 Edelbrock Qwiksilver carb on BT 1990-98 or XL 1988-98 with OEM throttle cables. Use on 1996-on S&S series carb to allow use of OEM cables.
16535

S&S Enricher Assembly
This can be used on S&S Super E & G carbs when an aftermarket air cleaner or velocity stack is used. Does not require lever assembly. Features full on or full off operation only.
73528

S&S Air Cleaner Cover Screws
Set of 3 chrome plated screws.
72518 Phillips 1/4-20 x 1 countersunk

S&S Super E & G

Compatible with Stock Throttle Cables on all Late Model Big Twins.

For the sake of safety, all S&S carbs are designed to use a two pull open/pull closed throttle system. Super "Shorty" carbs for Big Twins are compatible with stock 1981-on throttle cables. Carb kits for late model Big Twins, originally equipped with constant velocity (CV) carbs, include a taller throttle cable guide bracket that accomodates the longer CV style cables. Kits for earlier model Evolution Big Twins which could have been equipped with either a butterfly or CV type carb include both a shorter bracket for butterfly style cables and the tall bracket for CV style cables. Due to inadequate frame clearance the taller throttle bracket can not be used on Sportsters. Therefore, late model Sportsters and Buells require the installation of earlier butterfly style throttle cables.

S&S Super E and G Complete Carburetor Kit Selection Chart

Application	Year	Standard Super E Kit	Standard Super G Kit
BT	1984-92	110407	
	1993-99	110419	
Sportster	1986-90	110408	
	1991-03	110409	110429
	2004-05	110470	
Twin Cam 88	1999-05	110450	
	124" Motors only		110531
Carb Only	All	110420	110421

Note: OEM stock CV carb being replaced with an "E" or "G" will require use of the push-pull cable set-up, as stock on 1981-89.

Cruise Control

Super "Shorty" carbs can easily be installed on motorcycles equipped with factory cruise control. Cruise control adapter kits are available for 1993-97 and for 1998-03 later models. The S&S cruise control kits make any Super E or G carburetor compatible with the stock H-D cruise control. Kits include all parts and instructions needed to complete the installation.

112926 1993-97

112927 1998-03

The original short throttle cable guide #112339 fits the 1981-89 style stock H-D and S&S "butterfly" style throttle cables for Big Twins.

The new longer cable guide #112338 fits the 1990-on "CV" throttle cables for Big Twins.

				All FLT 1996-on and custom applications

Note:

1. Actual cable fitment may vary with the use of aftermarket bars, frame modifications, etc.
2. The "Total Hsg" length includes both the bent metal housing and vinyl carrier together. "Vinyl Hsg" length is for the carrier only

S&S 1" Spacer Support Kit

Required for Evolution or Twin Cam engines with head breather style heads using S&S Super E or G air cleaners.
160058

S&S Manifold Kit for 1984-89 80" Evolution

Converts stock rubber compliance fittings to a more rigid mount system, kit includes S&S manifold, mount flanges, 2 specially molded O-rings, and 2 .350" spacers for spacing out the stock air cleaner or carb mount bracket. This manifold is included in our super kit for Evo 1340cc.

- 161658 BT Evo
- 161650 Sportster 1986-03

- 117270 Low range jet pack for jetting most stock and moderate performance engines up to about 93" displacement
- 117271 High range jet pack for jetting some stock and all performance engines.
- 117272 Master jet pack for jetting all Super E and G equipped engines (this jet kit will also service most engines equipped with Super Bs)

Quickshot for S&S Super "E" & "G" Carbs

Bolt on accelerator pump that allows the fuel spray to be adjusted for volume and duration. Custom application for all S&S Super "E" and "G" carburetors.
41028

170486

170487

S&S Breather Conversion Kits

Conversion kits include banjo fittings that are sealed with silicone washers which offer a much better seal and greater durability than o-rings. These kits also offer easier air cleaner servicing because the banjo fitting and breather hose are mounted on the cylinder head before the air cleaner back plate is installed and do not need to be removed during servicing. Fits Super E and G cleaner kits 1993-99 BT, 1990-on XL and can be used to retrofit earlier S&S air cleaners. XL kits include a special insulator block and longer manifold bolts.

170486 BT 1993-99

170487 XL with 1-7/8" carbs 1991-2003

170488 XL with 2-1/16" carbs

S&S Manifold #341

For cylinder lengths of 4.650". Fits S&S Super E, Keihin and Bendix.

161650 1-7/8" Rigid mount for XL 1986-03

S&S 1-7/8" Rigid Mount V2 Manifold FL 84-99

For cylinder length 5.375", 88" and 107" BT 1984-99.

161626

S&S Paper Super E/G Element

S&S Super E Chrome Cover for 5 Gallon Tanks

170372

S&S Super E Chrome Cover FL 1993-99

170378

S&S Air Filter Adapter Kit

The high flow filter is 1" taller than our standard filter and features a low restriction, pre-oiled filter element. The low restriction element and larger surface area increase airflow by 37% over S&S's standard filter. The filter and filter adapters extend the teardrop housing out 1". The resulting band of exposed filter peeking out from under the teardrop imparts a high performance street racer look. Kit installs in minutes with no permanent modifications required. These kits are not for use with Super B or D carburetors or Super E and G kits for Buells.

170045 For S&S Super E and G carburetors

170055 Replacement filter

Insulator Blocks

1-7/8" Opening with mounting hole pattern that is identical to stock pattern on Tillotson, Bendix and Keihin butterfly type carbs. Use with all S&S 1-7/8" manifolds. Includes o-ring.

- 160491** 1/4" Thick
- 160497** 3/8" Thick Super E

2-1/16" Opening. Use with all S&S 2-1/16" manifolds, includes o-ring.

- 160492** 1/4" Thick
- 160498** 3/8" Thick Super G

2-1/4" Opening. Use with all S&S 2-1/4" manifolds, includes o-ring.

- 160499** 1/4" Thick

S&S Throttle Cable Brackets

These brackets allow the use of stock type cable on S&S E & G carbs.

- 73587** Fits 1981-89 Short type
- 73588** Fits 1990-on Long type

Long Float Bowl Screws for Super E

This facilitates easy removal of float bowl

73536

Idle Adjustment Cables

Includes housing and spring clip. Fits S&S Super E with holder stay.

41039

Adjustable Main Jets For S&S

Fits in the float bowl drain plug below the main metering jet. The recommended main jet is 100 to 104.

Adjustable Enricher for S&S

Replaces the stock fixed enricher, adjusts as bike warms up, and also makes for easier starting. O-rings and instructions included.

* Early Super E carburetors equipped with a 360 degree fuel inlet that require service must be converted to the bottom feed style fuel inlet. To update production Super E and G carburetors equipped with a 360 degree style inlet use 1 of #508009 o-ring, 1 of #112465 seat, and 1 of #190475 fuel line.

Carbs

Mikuni HSR 42 and 45 Total Kits for BT

These kits are complete with all required parts for installation. Kits include HSR 42mm or 45mm carburetor, intake manifold, rubber flange, K&N filter, chrome cover, breather kit and mounting hardware. 1990-on models use stock throttle/idle cable and 1984-89 models require 1990-on cables.

42mm

PCP	Description
59998	1984-99 BT

45mm

59993	1984-99 BT
59994	1999-06 TC

Topline Big Bore 44MM CV Carb Kit

Constant velocity carb features a 44mm bore to allow air and fuel delivery even at high RPMs. Installs easily using stock cables but an intake manifold must be ordered separately to ensure proper fitment. Exceptional low and mid range power for race applications. (27934-99)

68400	BT 1990-on & Twin Cam 88 1999-on (27934-99)
68401	Intake manifold TC-88 1999-on (29635-99)
68402	Intake manifold Evo 1340 1990-99 (29636-99)

CV Accessories

CV Carb Upgrade Kit

Includes rebuild kit, vacuum piston, screws and tuner kit. Fits 1988-06 Keihin CV carbs.
41010

Chrome Choke Cable Mount 1993-99

Replaces 69126-92 on 1993-99 FLT-FXST/D models.
27320

System II Atomizer

Screening device which further mixes fuel at face of manifold. The tossed mixture burns more efficiently and completely.

Intake Manifold Flanges for Evolution® Models

These intake manifold flanges will replace the stock parts on Evolution® Sportster® models 1986-95 and Evolution® Big Twins from 1990-95. They may also be used on RevTech™, HES Performance and S&S manifolds for Evolution® models.

PCP Description

41002 Plain flanges (27009-86A, 27010-86A)

41003 Chrome flanges

14030 Seals (26995-86A) (5 pack)

"CV" Manifold "O" Ring Kit

Includes 2 of 26996-86A & 1 of 27002-89

14200 3 piece kit

Keihin

Thunder Jet Accelerator Jet & Accessories

Mounts in all Bendix-Keihin, S&S, Flowmaster, Tillotson and CV carbs; choke must be deleted for use. Works on Venturi vacuum principle as a third jet. Extra jets included.

- 16273** Thunder Jet Bendix Keihin, S&S E series
- 16274** Replacement fuel tube
- 16275** Set of 3 air bleed jets for S&S Super E & G. Includes 1 each of .135, .150, & .160
- 16276** Thunder jet for CV carb
- 16279** Jet tool, all

Adjustable Main Jet for Keihin Carb

Eliminates the chore of "hit and miss" multiple jet changes when changing pipes or air cleaners on all Keihin equipped Harley-Davidson models 1976-on. Full adjustability allows precise tuning for maximum performance with every combination of engine, pipes and air cleaner. This kit frees you from the limitation of the few fixed jet sizes available and the labor of drilling jets. Use new gaskets and seals when installing, supplied in our rebuild kit. Our installation tool correctly marks the float bowl for proper fit.

- 3820** Complete kit (shown)
- 5784** Adjustable needle only (includes 180mm jet)
- 3825** Installation tool only

Float Bowl Screws for Keihin Carburetors

If you change Keihin jets, this kit should be bolted on. Includes an allen wrench, and has a flat black finish. Fits all Keihin.

- 4747** Socket screw set 1976-89 (not CV carbs)
- 24064** Socket screw set 1989-on (CV carbs)

Keihin Low Speed Jets 1976-89 (not CV)

16067	.100

High-Flow Accelerator Pump Kit for Keihin Carburetors (not for CV) 1980-88

This kit improves the performance of stock Keihin carbs. Fits 1980-88 Big Twin and 1980-87 Sportster® models. Bolt on extra power by simply removing the float bowl, drilling one small hole in it, and installing this high performance accelerator pump body. Low and mid-range throttle response are noticeably increased. Matte finish.

- 269050** Accelerator pump kit

Keihin Main Jets for Harleys

Preston now provides Keihin main jets in four needed sizes for 1976-on Harleys.

PCP	Size (mm) (each)
3821	1.65 (27419-76)
3824	1.70 (27418-76)

Turbulator

The turbulator turns the intake manifold into a violent mixing chamber. The heavier fuel particles are directed away from the sides of the manifold and back into the centre of the air flow. The fixed valve then tumbles the mixture resulting in higher horsepower.

PCP	Description
41000	38mm 2 bolt fits Keihin and Bendix
41004	40mm 2 bolt S&S Super B and E, and flat slide Mikuni
41009	CV all Keihin

Control Cable Guide Hook

Replaces OEM 45092-66. Stock on 1966-89 FL's but has many universal applications.

3980 Control hooks (5 pk)

Cable Routing "L" Bracket

Chrome bracket used for 1/2" O.D., on brake, clutch cables and hoses. 1/4" mounting hole.

16200 Sold each

Inner Throttle Sleeve

Custom design allows pull action or throttle cable for use with billet grips.

59730

1. Cut 2-3/8" off end of handlebar. Remove end of throttle handle that would attach to throttle cables.
2. Mark handlebar for inner throttle sleeve. Drill a hole for the set screw that will hold throttle on the handlebar.
3. Remove set screw from the outer sleeve of spiral. Slide grip on and mark the end of grip on the handlebar. Measure from this mark back to set screw in outer sleeve. This measurement will be used to mark and drill the throttle grip. Once drilled, install grip. Use a small amount of Loctite on set screw for final installation.

Heat Shrink Tubing for Braided Cables

Use clear heat shrink tubing on all braided stainless steel cables to prevent scratching of chromed or painted surfaces. Kit contains 4-16" long heat shrink tubes to cover 2 throttle cables, 1 clutch and 1 speedo cable.

PCP	Application
28713	Cable sleeve kit
28714	3/8" x 10' roll
28715	1/2" x 10' roll
28716	3/4" x 10' roll

Radii Roller Bearing Throttle Sleeve

Features precision ground bearing for smooth operation by reducing drag at end point. Requires handlebar modification. Accepts stock type nylon throttle tube or billet grips for either single or dual cable application.

59731

Barnett Cables

Barnett's smooth working, long lasting cables are virtually indestructible and are made from the finest components available. Casings are constructed from hard drawn spring wire and all fittings, ferrules and adjusters are machined in house from brass, aluminum and stainless steel to stringent specifications. All Barnett throttle cables are made with black PVC coated stock diameter nylon lined casings with 3/64" extra (7x7 strand) inner cable for extra long life. All cable fittings and elbows have a bright nickel finish. **All stainless cables have an anti-abrasive clear coat to protect paint and polished metal.**
