Kreem Blue Shield

Blue Shield is an internal exhaust pipe sealant that is designed to prevent 'pipe bluing' on properly tuned motors. Since bluing is caused by excessive heat, it may still occur if an engine is not in proper tune or if the carburetor is jetted too lean. Slight bluing may occur on pipes with extremely sharp bends coming from heads. Install on new, clean pipes only.

Exhaust Hardware

Exhaust Port Fasteners

The bolt holds the pipe secure, not merely by thread tension, but clamps the pipe to the head by wedging the patterned washers against the pipe while the washers are, in turn, wedged between the pipe and the "E" clip locks fitted to the bolt heads.
