21066	Derby cover	FLT 99-15, FXD & Softail 99-on

Note: If manufacturer has applied any primer finish, (it is meant only for the protection of the tanks during shipment and storage) it is **not recommended as a primer finish** for paint application without proper surface preparation. Where custom paint is to be applied, the tanks must be pressure tested, then sealed with a tank prep before painting, to help protect the final finish.

Flatside Gas Tanks

6037

6480

Flatside Fat Bob Gas Tanks 84-99
Reproductions of 'flatside' Fat Bob gas tanks. They fit FXST 84 and all 85-99 models with split tanks. Mounting hardware not included but available separately. Use 83-E96 screw in gas caps and 13/16" petcocks.

6037 3.5 Gal (61218-85, 61426-85)

Gas Tank Mount Kit
Fits 1995 model tank, PCP #89071.
27153

Iso-Mount Kit
For XL Bob tank kits.
27259   82-03

3.2 US Gallon XL King Gas Tank
Replica gas tank has a classic shape with the bottom edge rolled under to give a flowing line. Tank is for EFI type models. The fuel pump mount screw threads are 10-24 UNC. Order gas cap separately. Check the tank for flaws and fit before painting. It requires sanding and primer before painting. Do not grind or sand the seams or joints. Clean the inside of the tank. Pressure test the tank and use a tank sealer. Fits XL 883R, 1200N and 883N 07-on. Replaces 61405-07.
89200

Pingel Fuel Delivery Systems Are Covered Under One Or More Of The Following Patents: 4,250,921; 4,957,138; other patents pending.

Pingel Vacuum Fuel Valve

This vacuum operated fuel valve is a direct OEM replacement and has the highest fuel flow of any vacuum style valve on the market. When the valve is left in the "ON" position with the motor off, the fuel flow will be shut off automatically. These valves are chrome plated and are metric with adaptor nut.
| PCP	Application
21622	Left side mount hose outlets facing forward
21623	Left side mount hose outlets facing to the rear
21624	Left or right side mount hose outlets down

R-Right: Left side mounted, hose outlet facing back.
U-Under: Left side mounted, hose outlet facing right.

L-Left: Left side mount, hose outlet facing forward or right side mounted for Sportsters, hose outlet facing rear.
D-Down: Left side mounted, hose outlet facing right and down.

The appearance of these fuel valves are a trademark of Pingel Enterprise, Inc. Patants pending. Made in the USA.

S&S Air Filter Element
S&S Super E & G filter elements are made with the same filtering material used in many stock cars and drag racers. Removes more airborne particles while allowing better air flow. More durable and lasts longer, trapping nearly twice as much dirt before becoming clogged. Can be washed and reused several times before it needs to be replaced.
170054

Hi-Flow Air Cleaner Element
Fits S&S E air cleaners. Kit includes washable 3.5" high filter and mounting studs.
77747

K&N Aerosol Recharger Service Kit
A six step maintenance system designed to recharge any K&N air filter. Restores air flow efficiency. Includes 6.5oz spray oil and 12oz filter cleaner.

S&S Teardrop Air Cleaner for Twin Cams

With stock carburetor and for 2002 fuel injected models. Owners of 99-on Twin Cam style engines equipped with stock CV carburetors, 01-on fuel injected Softails, and all 2002 fuel injected models can enjoy the performance benefit and good looks of an S&S teardrop air cleaner. S&S backplate bolts directly to the stock CV carb or the single throat style EFI throttle body.

Like other S&S air cleaners for stock carbs the Twin Cam style air cleaners feature a uniquely designed backplate with air horn style radiused entryway and a dimpled cover with air directional cone on the inside. Both features help maximize air flow by giving intake air an efficient, easy path to follow into the carburetor or throttle body. Harmful particles are captured by the foam filter element which can be washed out and reused. The air cleaner cover is finished in show quality chrome, which compliments the appearance of most motorcycles. Kits include instructions and all parts and hardware needed to complete the installation.

Preston Enricher Assembly for S&S
This can be used on S&S Super E & G carbs when an aftermarket air cleaner or velocity stack is used. Does not require lever assembly. Features full on or full off operation only.
73528

S&S Super E & G

Compatible with Stock Throttle Cables on all Late Model Big Twins.

For the sake of safety, all S&S carbs are designed to use a two pull open/pull closed throttle system. Super "Shorty" carbs for Big Twins are compatible with stock 1981-on throttle cables. Carb kits for late model Big Twins, originally equipped with constant velocity (CV) carbs, include a taller throttle cable guide bracket that accomodates the longer CV style cables. Kits for earlier model Evolution Big Twins which could have been equipped with either a butterfly or CV type carb include both a shorter bracket for butterfly style cables and the tall bracket for CV style cables. Due to inadequate frame clearance the taller throttle bracket can not be used on Sportsters. Therefore, late model Sportsters and Buells require the installation of earlier butterfly style throttle cables.

S&S Super E and G Complete Carburetor Kit Selection Chart W/Crome Cover

170486

170487

S&S Breather Conversion Kits

Conversion kits include banjo fittings that are sealed with silicone washers which offer a much better seal and greater durability than o-rings. These kits also offer easier air cleaner servicing because the banjo fitting and breather hose are mounted on the cylinder head before the air cleaner back plate is installed and do not need to be removed during servicing. Fits Super E and G cleaner kits 93-99 BT, 90-on XL and can be used to retrofit earlier S&S air cleaners. XL kits include a special insulator block and longer maniold bolts.

Adjustable Main Jet for Keihin Carb

Eliminates the chore of "hit and miss" multiple jet changes when changing pipes or air cleaners on all Keihin equipped Harley-Davidson models 1976-on. Full adjustability allows precise tuning for maximum performance with every combination of engine, pipes and air cleaner. This kit frees you from the limitation of the few fixed jet sizes available and the labor of drilling jets. Use new gaskets and seals when installing, supplied in our rebuild kit. Our installation tool correctly marks the float bowl for proper fit.

3820   Complete kit (shown)
5784   Adjustable needle only (includes 180mm jet)
3825   Installation tool only

Choke Cable XL, FXR

PCP	Description
20014	(D)FLT, FXST FXR 90-92 (29236-90)

Air Cleaner Screws
1/4 x 20 S&S Style screws.
9980 (3pk)

XL Intake Manifold 2004-06
Intake manifold for spigot mount carburetor. Fits XL 04-06.
41061 27024-04

Intake Manifold Conversion Kit
Converts stock rubber compliance fittings to a more rigid mount system. Includes flange set and seals. This system may alter the fit of the stock carb and air cleaner assembly. Shimming or a slight change in bracketing may be required. Fits FXR 84-94, FLT, FXST 84-99, FLST 86-99 and FXD 91-99.
41063

Cable Blocks
Attaches inner cable to carburetor. Includes screw and cotter key. Replaces OEM 27450-36, 27719-67 and 27716-67.
1503 Sold Each

Manifolds & Adaptors

Stock Intake Manifolds
Cast alloy. Spigot type.

PCP	Application
41032	Evo 1340 90-on
	(27019-89A)

Stock Intake Manifolds
Are cast alloy as original to fit TC88 99-on.

41034   27613-99

Manifold Repair Rings
Adapter rings for repairing the lips on the head and intake manifold. They may also be used in customizing, to adapt early-type manifolds to late-type heads and vice-versa. The stroker rings can turn a stock manifold into a stroker manifold for .200" taller cylinders or stroker plates. Adapter and stroker rings are available in pairs.

3273   Adaptor rings
3280   Stroker rings

Rubber Flange Adapters (not for HS40's)
1968   36-38mm
1969   40-44mm

James Intake Manifold Seal
79510   86-09   (26995-97-X)

Carb Manifold Adaptors
Fit with our #1303 Manifolds.
2090   36mm to 38mm stepped manifold adaptor
2091   40-44mm straight through manifold adaptor

CV Carb Adapter
Adapts the HSR-42 Mikuni or CV carb to a 2-bolt manifold.
41007   2 Bolt early style

Manifold Spacer 71-89
Includes 2 gaskets.
2471   Manifold spacer 3/8"
(29250-78)

Carb Mount Studs

Stainless Steel Idle and Throttle Cable Set
Stainless steel cables have a clear coat finish

PCP	Throttle	Idle	Fitment
21924	43" (90° Elbow)	37.44"	FLT 90-93, FLHT 90-95, FLHR 94-95 (56327-90)

Inner Throttle Sleeve
Custom design allows pull action or throttle cable for use with billet grips.
59730

1. Cut 2-3/8" off end of handlebar. Remove end of throttle handle that would attach to throttle cables.
2. Mark handlebar for inner throttle sleeve. Drill a hole for the set screw that will hold throttle on the handlebar.
3. Remove set screw from the outer sleeve of spiral. Slide grip on and mark the end of grip on the handlebar. Measure from this mark back to set screw in outer sleeve. This measurement will be used to mark and drill the throttle grip. Once drilled, install grip. Use a small amount of Loctite on set screw for final installation.

Barnett Cables

Barnett's smooth working, long lasting cables are virtually indestructible and are made from the finest components available. Casings are constructed from hard drawn spring wire and all fittings, ferrules and adjusters are machined in house from brass, aluminum and stainless steel to stringent specifications. All Barnett throttle cables are made with black PVC coated stock diameter nylon lined casings with 3/64" extra (7x7 strand) inner cable for extra long life. All cable fittings and elbows have a bright nickel finish. **All stainless cables have an anti-abrasive clear coat to protect paint and polished metal.**
